

Speedy Freight

Environmental Objectives 2023

- Promote environmental awareness, objectives and reporting in all speedy Freight owned & franchise sites
- Launch a new reporting module in our Traffic Management System to increase the accuracy in reporting Co² emissions
- Strive to reduce the waste sent to landfill by recycling more
- Continue to recycle obsolete IT hardware, furniture & uniforms
- Increase the number of electric vehicle charging spaces on our estate
- Add 3 more sites to the scope of our ISO14001:2015 accreditation
- Develop a carbon reduction pathway towards net zero emissions
