

Speedy Freight

Environmental Objectives 2024

- Promote environmental awareness, objectives and reporting in all Speedy Freight owned & franchise sites
- Preserve our carbon-neutral status in partnership with Carbon Neutral Britain®
- Empower local environmental champions to implement practical initiatives that reduce our environmental impact
- Launch a new reporting module in our Traffic Management System to increase the accuracy in reporting customer CO² emissions
- Strive to reduce the waste sent to landfill by recycling obsolete IT hardware, furniture & uniforms and separating waste
- Increase the number of electric vehicle charging spaces on our estate
- Add 2 more sites to the scope of our ISO14001:2015 accreditation
- Reduce total emissions by at least 7.14% consistent with our net zero target
